

PROJECT
Eben Ezer
Lutheran Care Center

LOCATION
Brush, Colorado

TOTAL SQ.FT.
50,000

BUILDINGS
Memory Care: 1 Storey;
Assisted Living: 2 Storeys

TYPE OF PANELS
Load-Bearing Exterior and Interior
Corridor, CFS Shear Wall Panels

GENERAL CONTRACTOR
Fransen Pittman Construction Co., Inc.

VALUE -ADDED COMPONENTS
5/8" DensGlass Sheathing on Exterior Panels

PROJECT SCOPE:
Fastwalls supplied and installed 6" exterior and interior axial load-bearing steel stud wall panels, including built up jambs and headers, based on a corridor to exterior load path. Fastwalls also supplied and installed CFS shear wall panels for both the Memory Care and Assisted Living buildings.

UNIQUE COORDINATION:
Fastwalls' CFS load-bearing wall panels were paired with Ecospan's floor joist system and light gauge roof trusses, requiring close coordination between the project teams.
